

Curriculum & Teaching-Learning Process

Flow chart listing steps for adoption of Programs

Internally department teams draft a course curriculum taking into consideration the National and International Standards. Which is forwarded to the BOS.

The Draft curriculum is discussed in the Board of Studies Meeting where in we have 2 Industry Experts and 2 Academic Experts, who thoroughly review the program modules and the final version is forwarded to the Academic Council

The course curriculum finalized by the BOS is then forwarded to the Academic Council for the review where in we have 3 External Industry Members and 2 Academic Members apart from all the HOD's and Dean for the review.

Involvement of the Internal departments and Vigorous process of review by the External Experts in both BOS and AC ensures the implementation is done smoothly.
