Programme Descriptions

Manager as a Coach

Programme is designed to equip managers with the skills and knowledge necessary to effectively coach their team members. Through a combination of role-plays & practical exercises, participants will learn how to enhance job satisfaction, job engagement & strong morale of employees, build strong working relationships, have more meaningful interactions with their team members, provide effective feedback, and help team members achieve their full potential

AI Strategy for Senior Leaders

This programme equips senior leaders with AI insights and practical tools for crafting effective AI strategies.

Empowering Women in Leadership

The "Frozen Middle" stereotype hinders mid-level managers, particularly women, despite their crucial role in organizational success. This Programme breaks these stereotypes, empowering women to transition into leadership roles with a 2-day retreat focusing on leadership skills and personal challenges.

Building and Managing High-Performing Teams

This Programme helps participants understand how to cultivate trust and transparency, fostering robust collaboration and engagement. It provides leaders with essential tools and skills enhances communication, effectiveness, and motivation, fostering a positive team dynamic. Practical insights ensure leaders navigate complexities effectively.

Business Storytelling for Leaders

Business storytelling is crucial for effective communication and engagement within organizations. In today's fast-paced and competitive business landscape, the ability to craft compelling narratives can make all the difference in capturing the attention of stakeholders, inspiring action, and driving business success. The "Business Storytelling" programme offers a comprehensive exploration of the art and science of storytelling in a business context. Through a blend of multi-disciplinary coaching, experiential learning, collaborative discussions, and real-life implications

AI Strategy for Business and Technology Leaders

Gartner predicts 80% GenAI adoption by 2026, emphasizing its vital role in innovation and competitiveness. Our program equips leaders with AI skills to tackle business challenges effectively. Real-world examples ensure practical application, fostering collaboration and discussion.

B2B Sales Excellence

Today, customers across industries not only expect great products but also exceptional buying experiences. Sales executives face complex challenges and require a contemporary understanding of sales to successfully attract customers. This programme focuses on developing a systematic approach to B2B sales by providing key frameworks and practical tips that help firms, sales leaders, and sales executives win more deals.

Executive Leadership Presence

The two-day Leadership Presence workshop enhances executive leadership skills through authenticity, confidence building, and assertiveness training. Participants learn to handle pressure gracefully, develop a solution-oriented mindset, and confidently engage stakeholders while navigating challenges.

Programme Descriptions

Leading with Emotional Intelligence

The "Leading with Emotional Intelligence" program focuses on garnering support and engagement through persuasive skills and emotional self-awareness. Participants learn key frameworks and tools from experienced instructors to cultivate relationships, inspire action, and enhance team productivity, ultimately becoming adaptive leaders.

B2C Sales Excellence

This programme equips participants with the latest sales best practices, tools, and frameworks necessary to excel in sales. It focuses on developing a systematic approach to sales for retail customers and provides practical tips to enhance the productivity of firms, sales leaders, and sales executives.

Building and Leading a culture of Innovation

Innovation is essential for future relevance. Pre-pandemic, companies focused on copying tech giants but struggled with profitability. Research underscores the importance of a human-centric culture for success. In the post-pandemic era, leaders must drive innovation while prioritizing empathy, resilience, and purpose-driven organizations. This workshop offers hands-on experience to foster innovation and accelerate change.

Marketing in the Digital Era

In today's multi-channel world, customers demand exceptional buying experiences. Modern marketers leverage digital channels and data for better performance, innovation, and customer experiences. This program equips participants with frameworks and tools for a customer-centric, multi-channel marketing strategy, drawing from the instructor's industry experience.

Leader as a Coach

In a competitive landscape, talent retention is vital. Executives need support for sustained performance and career growth. This workshop focuses on coaching skills, fostering engagement, and meaningful dialogue to enhance team performance. Through hands-on exercises and feedback, leaders gain insights to conduct effective coaching conversations.

Leadership Competencies for Top Management

This programme emphasizes 21st-century leadership skills and transformational change. Using 360-degree feedback and a psychometric tool, executive coaches provide personalized insights and action plans over 4 days. Peer support and plenary sessions enrich the experience, fostering success at the top level.

Developing Business Acumen through Integrated Business Simulation

Companies seek managers with both functional expertise and a holistic business perspective. These managers align strategies with organizational goals, understanding how their actions impact other functions and overall objectives.

Strategies for growth & Business model Innovation

"Strategies for Growth and Business Model Innovation" guides entrepreneurs and managers in expanding businesses. It navigates growth decisions in competitive or high-growth markets, exploring four growth contexts and emphasizing innovation's role. Participants learn to exploit growth opportunities and capitalize on potential, with real-world examples reinforcing insights.

Programme Descriptions

Negotiation & Problem-Solving Strategies

Negotiation is integral to daily managerial interactions. This course provides a framework for systematic thinking, enhancing negotiation skills. It lays the foundation for continuous improvement in this critical competence.

Developing Financial Acumen

It is important for Senior Managers to be able to judge the financial strength of their strategic and operational decisions. Through the use of Business Simulation & Case Studies, provides a concise overview, of how managerial decisions impact market value for an organisation, and how value creation impacts the day-to-day life of managers
